

\$15,000 AND \$30,000 FINANCIAL AWARDS FOR TALENTED INDIVIDUALS IN SCIENCE, MATHEMATICS, OR ENGINEERING WHO ARE CONSIDERING THE TEACHING PROFESSION.

The **Noyce Teaching Scholars Program** and the **Leonore Annenberg Teaching Fellowships of the Woodrow Wilson Foundation** are accepting applications from individuals entering the University of Washington **secondary teacher preparation program as math or science teachers** and **intending to teach in local high-needs schools** upon graduation. These programs are available to students entering between Spring 2010 and Spring 2012.

Scholars and fellows will engage in a field-based teacher education program, which integrates academic and clinical instruction. University training and support will extend into the early years of teaching in high needs schools, incorporating induction and mentoring programs that feature ongoing school-University cooperation. Following certification in the Teacher Education Program, Noyce Scholars and Leonore Annenberg Teaching Fellows will be expected to teach for at least two years in local high-needs schools.

Prospective applicants should apply simultaneously to the University of Washington College of Education Teacher Education Program and to the Noyce Teaching Scholars Program and/or the Leonore Annenberg Teaching Fellowships of the Woodrow Wilson Foundation. (Those who have already been accepted into the Teacher Education Program need only to complete the supplemental application/s.)

University of Washington NOYCE TEACHING SCHOLARS

Ambitious, Equitable, and Collaborative Teaching

Currently accepting applications for Spring 2010.

The Noyce Scholars Program, funded by the National Science Foundation, provides up to \$15,000 of financial support to secondary math or science teaching scholars.

- Candidates must have: deep content knowledge in an area of science or mathematics, experiences with learners in diverse settings, and a commitment to help all children achieve at high levels.
- Individuals who are already accepted into the UW's Teacher Education Program are eligible to apply, as are individuals still planning to apply for the program's Spring Quarter 2010 start.
- Priority will be given to those who submit application materials by October 9, 2009.
